

## A21 Combi Oven Rinse Aid

Premium rinse additive for use in combination ovens via the integral cleaning system. Formulated to neutralise alkaline residues from Combi Oven Detergent, reduce water spots and prevent scale build up. Regular use helps maintain the oven in optimum condition, prolonging the life of the appliance and ensuring efficient operation.

- Powerful degreasing performance
- Breaks down grease and carbonised deposits
- Controlled foam level

For professional use only. Dose into the rinse process via the integral dosing system on combination ovens, following machine manufacturer's instructions. Use the oven control panel to adjust concentration as required. Typical dosing rate between 0.25% to 0.5%.

#### QUALITY ASSURANCE:

This product is manufactured in the UK by Orca Hygiene Ltd. Produced under ISO9001 Quality Management System and ISO 14001 Environmental Management System.

#### CONTAINS:

phosphoric acid
